

SEDIMENTOLOGY

The Journal of the International Association of Sedimentologists
edited by J. E. Andrews, B. G. Jones and A. G. Plint

Volume 43 1996

Blackwell
Science

Contents

NUMBER 1

- 1 Carl L. Amos, T. F. Sutherland and J. Zevenhuizen. The stability of sublittoral, fine-grained sediments in a subarctic estuary
 - 21 M. A. Rice, B. B. Willetts and I. K. McEwan. Observations of collisions of saltating grains with a granular bed from high-speed cine-film
 - 33 Ellen J. Prager, John B. Southard and Enrique R. Vivoni-Gallart. Experiments on the entrainment threshold of well-sorted and poorly sorted carbonate sands
 - 41 Ronald Greeley, Dan G. Blumberg and Steven H. Williams. Field measurements of the flux and speed of wind-blown sand
 - 53 Thea Vogt and Arturo E. Corte. Secondary precipitates in Pleistocene and present cryogenic environments (Mendoza Precordillera, Argentina, Transbaikalia, Siberia, and Seymour Island, Antarctica)
 - 65 Michael Sørensen and Ian McEwan. On the effect of mid-air collisions on aeolian saltation
 - 77 Julian C. Baker, Jochen Kassin and P. Joe Hamilton. Early diagenetic siderite as an indicator of depositional environment in the Triassic Rewan Group, southern Bowen Basin, eastern Australia
 - 89 John A. Howell, Stephen S. Flint and Catherine Hunt. Sedimentological aspects of the Humber Group (Upper Jurassic) of the South Central Graben, UK North Sea
 - 115 L. Massé, J. C. Faugères, C. Pujol, A. Pujos, L. D. Labeyrie and M. Bernat. Sediment flux distribution in the Southern Brazil Basin during the late Quaternary: the role of deep-sea currents
 - 133 Brian K. Horton and James G. Schmitt. Sedimentology of a lacustrine fan-delta system, Miocene Horse Camp Formation, Nevada, USA
 - 157 X. Ke, G. Evans and M. B. Collins. Hydrodynamics and sediment dynamics of the Wash embayment, eastern England
 - 175 Jelena Colson and Isabelle Cojan. Groundwater dolocretes in a lake-marginal environment: an alternative model for dolocrete formation in continental settings (Danian of the Provence Basin, France)
- DISCUSSION/REPLY
- 189 Gerald M. Friedman. Thin section grain size analysis revisited
M. R. Johnson. Reply
 - 193 Book reviews
 - 196 Forthcoming papers

NUMBER 2

- 197 David A. Osleger and Isabel P. Montañez. Cross-platform architecture of a sequence boundary in mixed siliciclastic-carbonate lithofacies, Middle Cambrian, southern Great Basin, USA
- 219 John A. Howe. Turbidite and contourite sediment waves in the northern Rockall Trough, North Atlantic Ocean
- 235 Kenneth J. Tobin, Kenneth R. Walker, D. Mark Steinhilff and Claudia I. Mora. Fibrous calcite from the Ordovician of Tennessee: preservation of marine oxygen isotopic composition and its implications

- 253 Abraham Zelilidis and Nikolaos Kontopoulos. Significance of fan deltas without toe-sets within raft and piggy-back basins: examples from the Corinth graben and the Mesohellenic trough, Central Greece
 - 263 José M. Martín, Juan C. Braga, Christian Betzler and Thomas Brachert. Sedimentary model and high-frequency cyclicity in a Mediterranean, shallow-shelf, temperate-carbonate environment (uppermost Miocene, Agua Amarga Basin, Southern Spain)
 - 279 Geraint Owen. Experimental soft-sediment deformation: structures formed by the liquefaction of unconsolidated sands and some ancient examples
 - 295 Christopher R. Fielding and John A. Webb. Facies and cyclicity of the Late Permian Bainmedart Coal Measures in the Northern Prince Charles Mountains, MacRobertson Land, Antarctica
 - 323 Brian Jones and Robin W. Renault. Morphology and growth of aragonite crystals in hot-spring travertines at Lake Bogoria, Kenyan Rift Valley
 - 341 H. Wayne Nesbitt and Grant M. Young. Petrogenesis of sediments in the absence of chemical weathering: effects of abrasion and sorting on bulk composition and mineralogy
 - 359 P. Rognon, G. Coudé-Gaussen, M. Revel, F. E. Grousset and P. Poedemay. Holocene Saharan dust deposition on the Cape Verde Islands: sedimentological and Nd-Sr isotopic evidence
 - 367 Zhang Xiuzhu, Wang Yunfei and Lei Huaiyan. Authigenic mineralogy, depositional environments and evolution of fault-bounded lakes of the Yunnan Plateau, south-western China
 - 381 Pascal Kindler and Paul J. Hearty. Carbonate petrology as an indicator of climate and sea-level changes: new data from Bahamian Quaternary units
- DISCUSSION/REPLY
- 401 Mark T. Harris. The carbonate factory of Middle Triassic buildups in the Dolomites, Italy: a quantitative analysis
Wolfgang Blendinger. Reply
 - 405 Forthcoming papers

NUMBER 3

- 407 Peter J. Ramsay, Alan M. Smith and Thomas R. Mason. Geostrophic sand ridge, dune fields and associated bedforms from the Northern KwaZulu-Natal shelf, south-east Africa
- 421 J. J. Bahk and S. K. Chough. An interplay of syn- and intereruption depositional processes: the lower part of the Jangki Group (Miocene), SE Korea
- 439 M. F. Lapointe. Frequency spectra and intermittency of the turbulent suspension process in a sand-bed river
- 451 Andrew Frank and Gary Kocurek. Toward a model for airflow on the lee side of aeolian dunes
- 459 David A. Eberth. Origin and significance of mud-filled incised valleys (Upper Cretaceous) in southern Alberta, Canada
- 479 P. J. Jorgensen and C. R. Fielding. Facies architecture of alluvial floodbasin deposits: three-dimensional data from the Upper Triassic Callide Coal Measures of east-central Queensland, Australia
- 497 A. E. Mohammed, O. D. van de Veer, H. J. Oldenziel and C. J. Stigter. Wind tunnel and field testing of a simple sand catcher for sampling inhomogeneously saltating sand in desertified environments

- 505 Patrick A. Hesp and Robert Hyde. Flow dynamics and geomorphology of a trough blowout
- 527 Bianca Rimoldi, Jan Alexander and Stephen Morris. Experimental turbidity currents entering density-stratified water: analogues for turbidites in Mediterranean hypersaline basins
- 541 Piers Larcombe and Colin F. Jago. The morphological dynamics of intertidal megaripples in the Mawddach Estuary, North Wales, and the implications for palaeo-flow reconstructions
- 561 Paul S. Kench and Roger F. McLean. Hydraulic characteristics of bioclastic deposits: new possibilities for environmental interpretation using settling velocity fractions
- 571 Tadeusz Marek Peryt. Sedimentology of Badenian (middle Miocene) gypsum in eastern Galicia, Podolia and Bukovina (West Ukraine)
- 589 Kate Kranck, P. C. Smith and T. G. Milligan. Grain-size characteristics of fine-grained unflocculated sediments I: 'one-round' distributions
- 597 Kate Kranck, P. C. Smith and T. G. Milligan. Grain-size characteristics of fine-grained unflocculated sediments II: 'multi-round' distributions
- 607 Forthcoming papers

NUMBER 4

- 609 Editorial
- 611 Anthony R. Prave, William L. Duke and William Slattery. A depositional model for storm- and tide-influenced prograding siliciclastic shorelines from the Middle Devonian of the Central Appalachian Foreland Basin, USA
- 631 David A. Pivnik and M. Javed Khan. Transition from foreland- to piggyback-basin deposition, Plio-Pleistocene Upper Siwalik Group, Shinghar Range, NW Pakistan
- 647 P. A. Carling. Morphology, sedimentology and palaeo-hydraulic significance of large gravel dunes, Altai Mountains, Siberia
- 665 E. J. Anthony, J. Lang and L. M. Oyédé. Sedimentation in a tropical, microtidal, wave-dominated coastal-plain estuary
- 677 Carl N. Drummond, Bruce H. Wilkinson and Kyger C. Lohmann. Climatic control of fluvial-lacustrine cyclicity in the Cretaceous Cordilleran Foreland Basin, western United States
- 691 R. N. Erlich, A. Astorga, Z. Sofer, L. M. Pratt and S. E. Palmer. Palaeoceanography of organic-rich rocks of the Loma Chumico Formation of Costa Rica, Late Cretaceous, eastern Pacific
- 719 Kenneth J. Tobin and Kenneth R. Walker. Ordovician low- to intermediate-Mg calcite marine cements from Sweden: marine alteration and implications for oxygen isotopes in Ordovician seawater
- 737 Julian B. Murton. Thermokarst-lake-basin sediments, Tuktoyaktuk Coastlands, western arctic Canada
- DISCUSSION/REPLY
- 761 K. R. Aalto, K. Moley and W. Miller. Evolution of a trench-slope basin within the Cascadia subduction margin: the Neogene Humbolt Basin, California
- 764 P. A. McCrory. Reply
- 770 Forthcoming papers

NUMBER 5

- 771 J. C. Maroulis and G. C. Nanson. Bedload transport of aggregated muddy alluvium from Cooper Creek, central Australia: a flume study
- 791 D. W. T. Jackson. A new, instantaneous aeolian sand trap design for field use
- 797 Ken J. Woolfe and James R. Balzary. Fields in the spectrum of channel style
- 807 Eugene C. Rankey and Daniel J. Lehrmann. Anatomy and origin of toplap in a mixed carbonate-clastic system, Seven Rivers Formation (Permian, Guadalupian), Guadalupe Mountains, New Mexico, USA
- 827 Guy M. Narbonne and Noel P. James. Mesoproterozoic deep-water reefs from Borden Peninsula, Arctic Canada
- 849 Ray Kostaschuk and Paul Villard. Flow and sediment transport over large subaqueous dunes: Fraser River, Canada
- 865 Kazuhisa A. Chikita, Norman D. Smith, Noboru Yonemitsu and Marta Perez-Arlucea. Dynamics of sediment-laden underflows passing over a subaqueous sill: glacier-fed Peyto Lake, Alberta, Canada
- 877 James P. Hendry, Nigel H. Trewin and Anthony E. Fallick. Low-Mg calcite marine cement in Cretaceous turbidites: origin, spatial distribution and relationship to seawater chemistry
- 901 B. Chatenet, B. Marticorena, L. Gomes and G. Bergametti. Assessing the microped size distributions of desert soils erodible by wind
- 912 Forthcoming papers

NUMBER 6

- 913 Lucio Lirer, Mike Sheridan and Anna Vinci. Deconvolution of pyroclastic grain-size spectra for interpretation of transport mechanisms: an application to the AD 79 Vesuvio deposits
- 927 K. J. Page and G. C. Nanson. Stratigraphic architecture resulting from Late Quaternary evolution of the Riverine Plain, south-eastern Australia
- 947 Gregory E. Webb. Was Phanerozoic reef history controlled by the distribution of non-enzymatically secreted reef carbonates (microbial carbonate and biologically induced cement)?
- 973 Jean Marie Rouchy, Michel Servant, Marc Fournier and Christiane Causse. Extensive carbonate algal bioherms in upper Pleistocene saline lakes of the central Altiplano of Bolivia
- 995 Charlie Bristow, Jonathan Pugh and Tim Goodall. Internal structure of aeolian dunes in Abu Dhabi determined using ground penetrating radar
- 1005 Tadeusz M. Peryt and Peter A. Scholle. Regional setting and role of meteoric water in dolomite formation and diagenesis in an evaporite basin: studies in the Zechstein (Permian) deposits of Poland
- 1025 C. J. Talbot, W. Stanley, R. Soub and N. Al-Sadoun. Epitaxial salt reefs and mushrooms in the southern Dead Sea
- 1049 Book reviews
- 1051 Author index
- 1052 Forthcoming papers
- 1053 Acknowledgments
- 1055 International Association of Sedimentologists statement of dues 1996
